300kw Packaged Boiler

Our 300kW packaged boiler range is housed within a steel container, enabling external siting and increased protection from environmental elements. The container also aids with portability, as the unit can easily be positioned with a fork-lift unit and connected to a customer's system, ensuring a fast set-up.

The units are designed for reliable and safe operation, with flexible hoses resistant up to 7Bar pressure and temperatures up to 90°C. Furthermore the units feature safety devices and system protection.
